EXPERIENCE

JUNIOR FRONTEND DEVELOPER

DXC Technology, Varna, Bulgaria

Sep 2022 - present

- Develop cutting-edge frontend solutions for the public sector, taking on higher-level responsibilities such as feature development from scratch, UI/UX design suggestions, and technology selection.
- Contribute to the establishment of best practices in frontend development, including project folder structures, application layout, and code organization.
- Collaborate with international colleagues to clarify requirements and discuss potential solutions in English.
